DETAILED ACTION

Examiner's Comment

1. In light of the lengthy and complex prosecution of this application, the examiner requests that applicant submit an all encompassing amendment listing all pending claims, and indicating which claims have been cancelled, as well as all changes made to the specification. This would be greatly appreciated.

Reissue Applications

2. The originally filed reissue oath/declaration filed with this application on 22 December 2003 is defective (see 37 CFR 1.175 and MPEP § 1414) because of the following:

In paragraph 4 applicant has acknowledged the duty to disclose information that is material to the "examination" of this application. However 37 CFR 1.63(b)(3) requires the acknowledgement of the duty to disclose to the Office all information known to the person to be material to patentability.

3. The reissue oath/declaration filed with this application is defective because it fails to contain the statement required under 37 CFR 1.175(a)(1) as to applicant's belief that the original patent is wholly or partly inoperative or invalid. See 37 CFR 1.175(a)(1) and see MPEP § 1414.

Applicant's statement of error includes the statement "for example, our patent protection provided by the issued claims need not be limited to rear supports being pivotable about a rear vertical axis, as required by issued claim 9". However, the claims indicated that only at least

one of the rear supports is pivotable about a rear vertical axis. The statement of error should be resubmitted to clearly indicate that it was not necessary for patentability of the claims to recite that both rear supports are pivotable when only at least one of the pair being pivotable would render the claims patentable.

4. A new reissue oath/declaration in compliance with 37 CFR § 1.175 is required in response to this action.

Specification

5. The amendment to the title, presented in the preliminary amendment filed 11 September 2003 is improper. Amendments to the specification must conform with 37 CFR 1.173(b)(1).

Claim Rejections

6. Claims 1-11, 48-54, 56-61, 71-83, 85-98, and 101-121 are rejected as being based upon a defective reissue oath under 35 U.S.C. 251 as set forth above. See 37 CFR 1.175.

The nature of the defect(s) in the oath/declaration is set forth in the discussion above in this Office action.
